# **Becoming an Interdisciplinary Researcher: Tips and strategies for careers in academia and beyond**

**Professor Catherine Lyall**

**Science Technology and Innovation Studies  
University of Edinburgh**

**Thursday, 12 May 2022**

14.00-15.30 CET (13.00-14.30 UK)

## **Session outline**

This session is designed to provide practical lessons for graduate students embarking on interdisciplinary projects, those who plan to undertake such research in the future and those considering their next steps in a research career. Catherine Lyall led the team that developed [The SHAPE-ID Toolkit](#) which provides tools and resources to improve collaboration across disciplines and between different sectors. In this session she will introduce some of the key issues for conducting interdisciplinary research at a graduate level and developing a career as an interdisciplinary researcher.

The 90-minute session will include a lecture and breakout groups to allow participants to share experiences and identify issues or questions to bring back to the plenary discussion / Q&A.

The workshop will highlight some of the resources available from the toolkit and participants are encouraged to have a brief look at the toolkit in advance.

## **HGGS Zoom Meeting**

<https://us02web.zoom.us/j/83514533696?pwd=eFBmL29HRHE2VFM5MktCL2FoOGk4dz09>

Meeting-ID: 835 1453 3696  
Code: 149784

The meeting room will open at 13.45 CET.
